Report of the Superintendent of Schools

To The Superintending School Committee of Canaan:

In accordance with the provisions of the school law I herewith submit to you, and to the citizens of Canaan, my annual report for the fiscal year ending February 15th, 1923.

The school census of April 1st, 1922, showed a total of 230 persons between the ages of 5 and 21 years, a loss of 2 from the preceding year. The fall term of school showed an enrollment of 157 pupils, an increase of 12 over last year. 131 pupils have enrolled in the elementary school, 19 in the high school, and 7 attending school elsewhere.

ELEMENTARY SCHOOLS

Six elementary schools were operated during the fiscal year for approximately 36 weeks. It became necessary to close the Brown's Corner school at the close of the fall term and open the Slab City school, as a majority of the pupils were in that district.

Only one school, the Brock, has remained in charge of the same teacher for the full fiscal year. All the other schools have had one, and in some cases, two changes of teachers.

HIGH SCHOOL

The average enrollment in the high school has been about 18 pupils. There are also 4 high school tuition pupils at Skowhegan high school, 1 at Clinton high school, and 1 pupil paying his own tuition at Coburn Classical Institute.

The work of the high school for the year has probably been the best since the change was made to a class B school. Heretofore we have been unable to cover a full year's work in some subjects, owing to the fact that some of the pupils were unable to do it; and forcing them beyond their capacity always ended in their becoming discouraged and dropping out. This year the average preparation is better and the pupils are doing better work and more of it.

REPAIRS

In addition to the usual minor repairs the Nason school and the Whitten school were shingled this year, another coat of paint applied to the Primary school and new desks supplied for the Grammar school.

If the Slab City school is to be continued, as present conditions would indicate, some repairs will have to be made there. The roof is leaking badly and some repair work is needed inside.

We are informed by the state authorities that the remodeling of all school buildings to comply with the standards of the present laws will have to be completed by 1926. We have three rural schools and a village school to take care of in this time. I do not include the Nason school in this list because of the fact that so long as this school is so small there is always a possibility that the balance of school population may swing to the Whitten school. While this condition prevails we would probably be excused from spending the money necessary to remodel either of these buildings.

This remodeling program brings us face to face with the problem which was brought before the town two years ago in regard to conveying the pupils to the village from the Brock and the Moore's Mill schools. Before spending a thousand dollars or more on each of those schools, both of which are within $1\frac{1}{2}$ miles of the village, would it not be better to provide another room at the village and run three elementary schools there, instead of two, as at present? It would cost less to provide the room at the village than to remodel two schools. The saving in the wages of one teacher would more than offset the additional cost of conveyance, and the educational advantages offered by the village school of two or three grades would certainly be far superior to that of the rural school with six to eight grades.

The fact that I am calling this situation to your attention does not necessarily imply that I am urging this plan. I am simply bringing it to your notice because I think it is worthy of your earnest consideration. If the change is ever going to be made, now is the time to do it.

APPROPRIATIONS

The following appropriations are recommended for next year:

Common schools	\$4000.00
High school	650.00
Books	300.00
Supplies	200.00
Repairs	1200.00

This is \$600.00 less than last year for high school, \$100.00 less for supplies, and \$600.00 more for repairs, which includes the remodeling of one building.

Respectfully submitted,

T. W. McQUAIDE, Superintendent.
